

The Department of Chemistry and Biochemistry supports the buyback program of FR lab coats from Chemistry undergraduates. The department purchases FR lab coats and then in turn offers the FR lab coats at the reduced price of \$25.00. Our stock currently consists of sizes small to 2XL.

### **Cleaning**

Twice per year, free of charge, members of the Chemistry and Biochemistry Department may have their lab coats sent to St. Michael's laundry. Lab coats must be left in the stockroom on Monday afternoon for pick up by St. Michael's early Tuesday morning. You may pick up your clean coats in the stockroom on Thursday after 3:00 pm.

Lab coats may be sent to St. Michael's Laundry as many times per year as desired; however the Chemistry Department will only pay for two cleanings per lab per year. Any additional washings will be charged to the labs.

A laundry bag bearing a stencil with the lab name may be requested. Please submit all requests to the stockroom, [dverleye@nd.edu](mailto:dverleye@nd.edu) or 574-631-7841.

### **Cost**

As of 3/30/2020, the cost for the cleaning of one coat is \$4.39.

### **Questions**

Please direct any questions concerning FR lab coats to Dawn, 574 631 7841 or [dverleye@nd.edu](mailto:dverleye@nd.edu)
